

# Envisioning Our New Urban Farm

Groundwork Somerville

## A BOUNTIFUL FUTURE

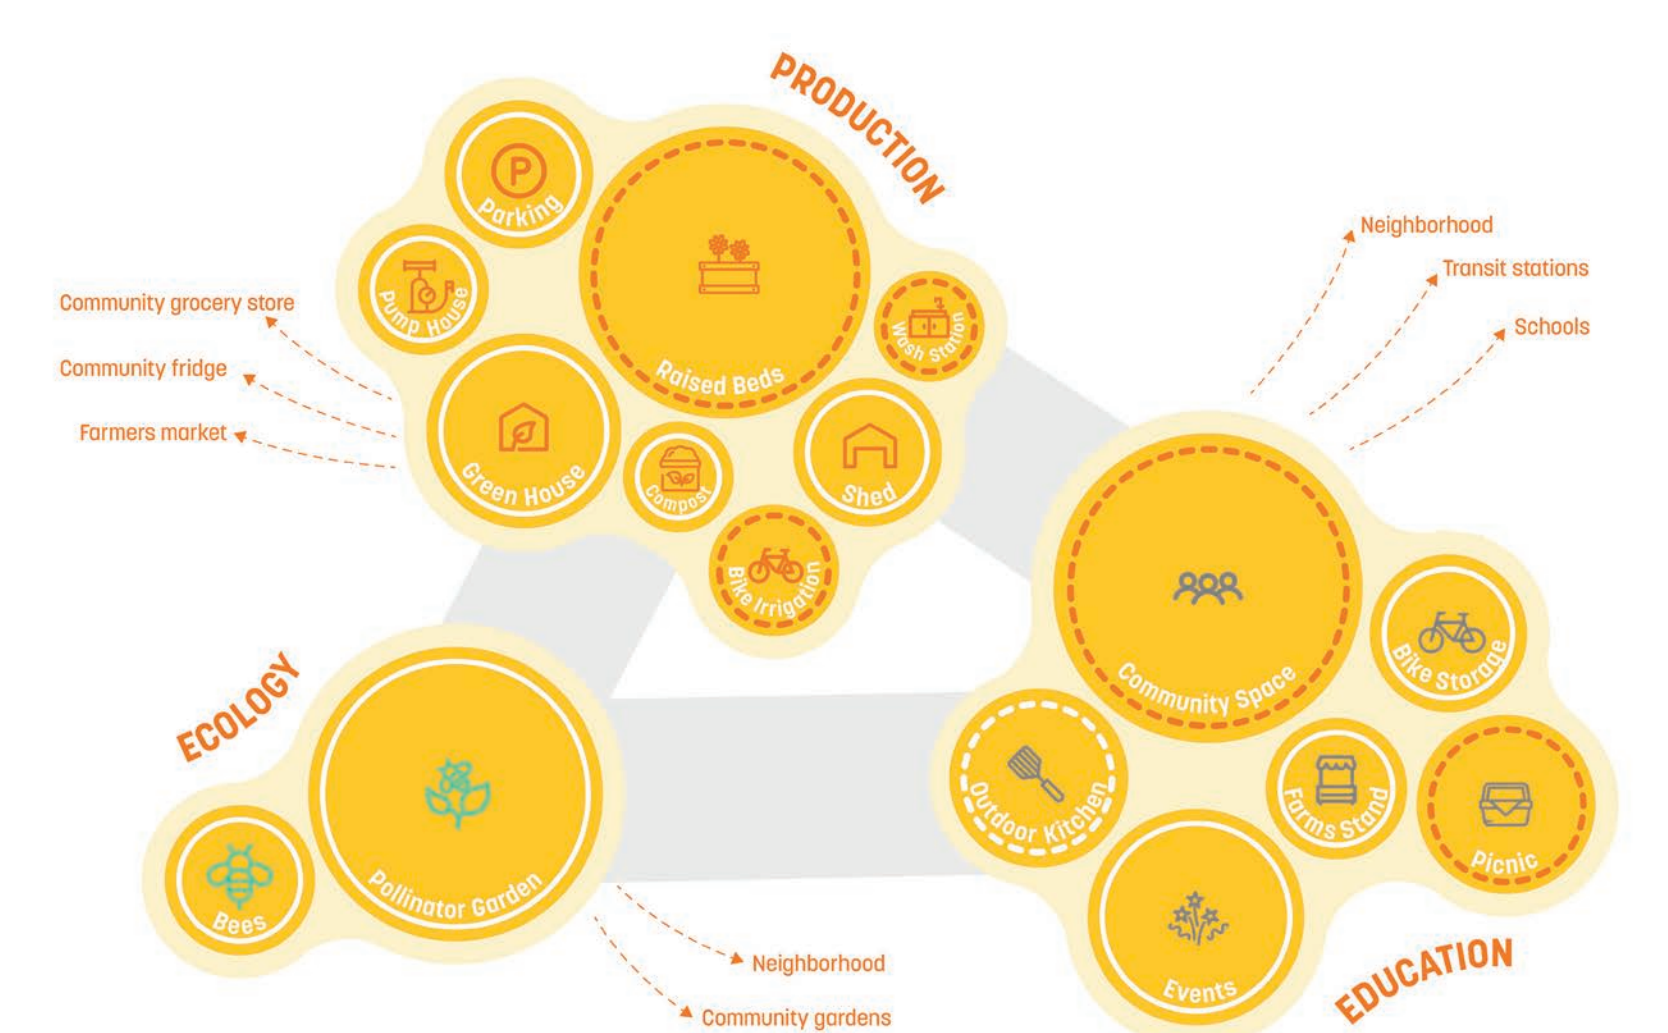

Groundwork Somerville's new farm will expand our hub for community engagement, local healthy food access, and green jobs for youth.

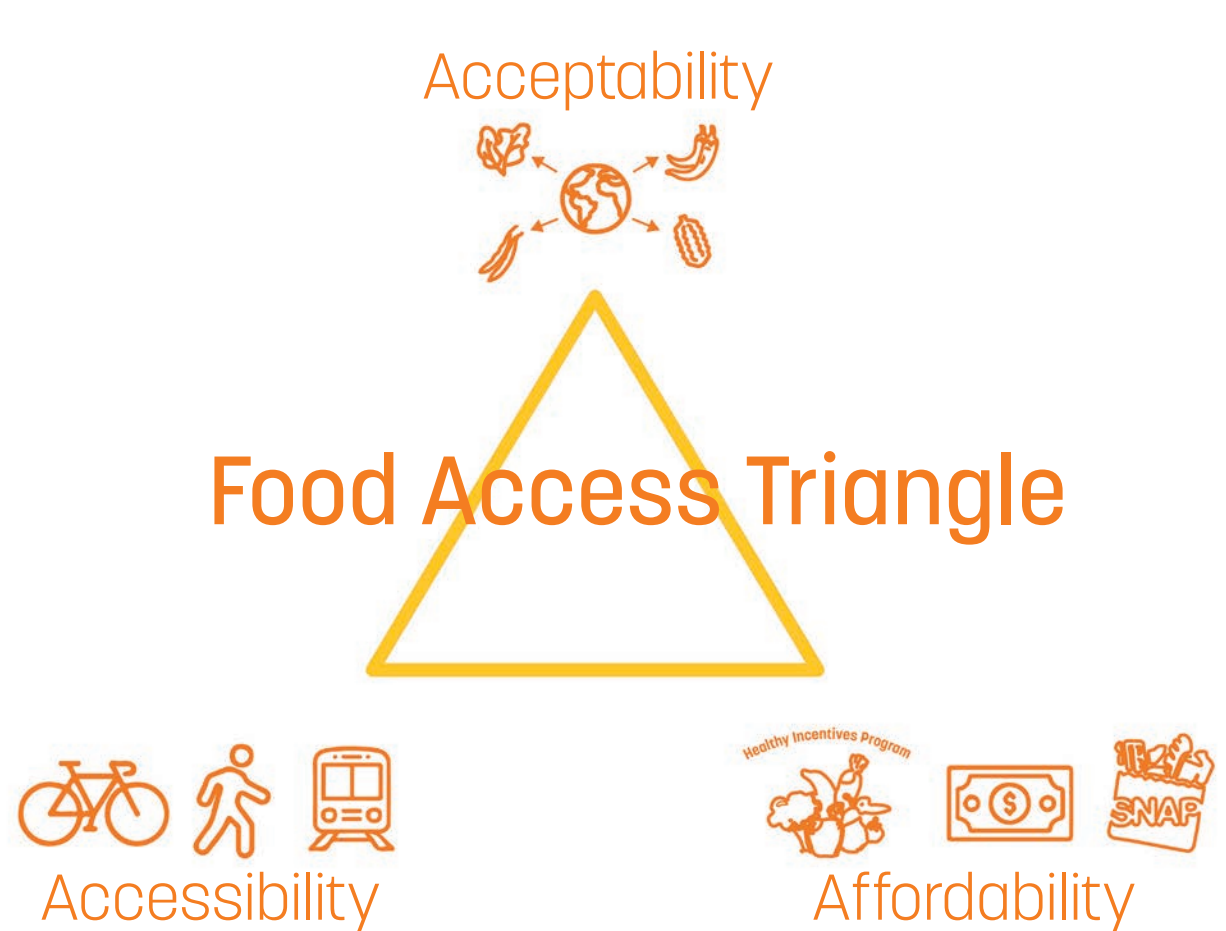

At our urban farm in 2022...

- 2,345 pounds of culturally relevant food harvested
- 145+ volunteers
- 17 green jobs provided for local high school youth
- 85 students engaged in urban farm field trips and programming
- 2,061 seedlings provided at sliding scale to community members

More space needed  
Proposed new space

A more organized structure integrates production, education, and ecology to better serve the community.
